Description

USDA-Forest Service, Olympic National Forest, Pacific Ranger District Notice of 30-day Comment on Preliminary Environmental Assessment Calawah Off-Highway Vehicle Project Request for Comment: The Preliminary Environmental Assessment (EA) for the Calawah Off-Highway Vehicle (OHV) Project is now available for a 30-day public review and comment period. The preliminary EA discloses an analysis of environmental effects for the proposed action. The proposed action addresses ongoing unauthorized OHV use on the Olympic National Forest. The proposed action would designate about 22 miles of National Forest System Roads and unauthorized user created OHV trails for use and construct about 0.25 miles of new OHV trail. Designated roads and trails would be restricted to OHVs 50 inches wide or less. In order to focus use on the proposed OHV trail network and reduce resource impacts, about 6.6 miles of existing unauthorized user-created trails would be rehabilitated as part of the proposed action. The project area is located in the Calawah River and Sol Duc River fifth field watersheds. The legal locations of the proposed trail system are as follows: T29N, R10W, Sections 6 and 7; T29N, R11W, Sections 1, 2, 11, 12, 13, 14; and T30N, R11W, Section 31, 35, and 36. The project area includes National Forest System, state, and private lands. The preliminary EA and associated maps are available for review and comment at the project website (hard copies are available upon request):
